

The Colette's Children's Home – Serving Homeless Women & Children for 12 Years

When a woman first comes into our program, she is assigned a case manager who works with her to identify the issues that led to homelessness. An individual recovery or work plan is then developed with clearly defined goals and objectives. Each client is required to meet with her case manager on a minimum of a weekly basis to discuss progress towards each established goal. We assist clients in securing gainful employment within 30 days of program entry. We then begin a monthly budgeting and savings program with them, requiring each client to save 80% of her discretionary income while in our program.

Clients are also required to attend life skills classes on a weekly basis. Concurrent to these life skills classes, children attend a weekly children's program that is run by our case managers and assisted by child development and social work interns and volunteers from the community.

CCH also hosts family-centered events year round including holiday parties, picnics, opportunities to attend professional sporting events and theater productions as well as many other volunteer-run events. These activities are designed to support and enrich the lives of our mothers and children, helping them build positive family memories while working toward major goals of independence and self-sufficiency while residing in our shelter programs.

Along with comprehensive, goal-oriented support services, we offer practical assistance such as food cards, bus passes, hygiene supplies, and household items. CCH has a long established and collaborative relationship with other agencies in the area where we refer clients for counseling, healthcare, childcare, job training, and education.
